

Back Cove 412

2025 Model Year Highlights

We are excited to share the Back Cove 41 updates for the 2025 model year, changes that are worthy of a new model designation, the 412. While the hull geometry and interior layout remain the same, we are reintroducing this model with some desirable new features, including...

- Remote helm fuel tank switching system with manual engine room backup
- Frameless Direct-Bonded Pilothouse windows with P&S openings
- Full-height, single panel, hinged pilothouse helm door to the side deck
- Low-Glare Helm with black windshield mullions
- New Glendinning cord reel with power extend and retract
- Updated cockpit cushions with magnets for easy storage access
- Forward opening engine hatch for improved access
- Sliding salon door with power window to starboard
- New cockpit options - aft-facing seat AND grill cabinet + fridge, OR (2) aft-facing seats
- Volvo D8 600hp now standard
- Volvo D11 725 hp option now includes Volvo's Slow Speed Mode option

This is a preview of the updates, but it is not a complete list of 412 changes. The 412 details will not be finalized until late 2024. Call your broker for more information.

Back Cove Yachts reserves the right to change the standard equipment and option lists at any time.
