

Coming your way.

The New Back Cove 372

The Back Cove 37 is among Back Cove Yacht's most successful models with more than 200 hulls launched since 2009.

The Back Cove 372 incorporates customer feedback and advancing technology to put a new spin on a Back Cove classic.

372

Building upon the most popular elements of the Back Cove 37, the Back Cove 372 will feature:

- **Frameless glazed windows** – Back Cove has largely eliminated traditional aluminum window frames, while the framed center-opening window has opening appliances for smoother and easier operation.
- **Electrical Systems** – An upgraded 24V DC electrical system facilitates the use of smaller wires to reduce weight and increase run time on the bow and optional stern thrusters.
- **Bow Thruster** – 100 series Sidepower thruster offers greater control and precision than the original 80 series thruster.
- **Standard and Optional Power** – In response to a strong preference by Back Cove 37 owners, the 372 will feature the Cummins QSC 8.3 600hp diesel engine with 7" display as standard, and a Volvo Penta D8 diesel with 7" Garmin display as an option.
- **Glare Reduction** – Borrowing from the successful Back Cove 390 feature, black windshield liner reduces glare when operating after dark. A redesigned helm pod takes further advantage of this anti-glare feature and offers additional space for navigational electronics.
- **Entertainment** – The Back Cove 372 will introduce a wooden-framed 32" Smart TV in the salon for enhanced visibility and convenience.

And far from least...

- **Cockpit and Salon Door** – A standard aft-facing seat is the focal point of the Back Cove 372's updated cockpit design. A new salon door to port with bi-fold window to starboard (above the aft-facing seat) adjoins the two social spaces.

372 PRELIMINARY SPECIFICATIONS*

Length Overall	42'0"/12.95 M
Hull Length	38'2"/11.64 M
Beam	13'3"/4.04 M
Draft	3'7"/1.09 M
Air Draft	12'6"/3.81 M
Deadrise	16°
Standard Power	Cummins 600
Displacement	22,100 LBS/10.02 T
Fuel	300 USG/1136 L
Water	120 USG/454 L
Sleeps	6

* Designed to ABYC, NMMA, USCG, ISO Category "B" standards. Subject to change without notice.
